

BOGA CHANDANA

☎91-9121175053 | chandana15@gmail.com | Hyderabad, Telangana | [GitHub](#) | [LinkedIn](#)

CAREER OBJECTIVE

Motivated and detail-oriented Computer Science graduate with strong foundations in Python, Object-Oriented Programming, and Machine Learning. Proficient in HTML, CSS, SQL, JAVASCRIPT concepts. Adept at problem-solving and analytical thinking, with a passion for developing intelligent, secure, and scalable solutions. Seeking opportunities in software development, machine learning to apply technical expertise and contribute to organizational growth.

EDUCATION

Bachelor of Technology (Artificial Intelligence and Machine Learning)

- TKR College of Engineering and Technology 2022-2026 | CGPA: 9.4

Intermediate (MPC)

- Narayana Junior College 2020-2022 | CGPA: 9.3

Board of Secondary Education

- Dilsukhnagar Public School 2020 | CGPA: 10

PROJECTS

AI BASED STUDENT LEARNING AND EXAM PREPARATION PLATFORM

- Developed an intelligent web-based learning platform to assist students in personalized study planning and exam preparation. Built the frontend using **React.js**, **Node.js**, **HTML** and **CSS** and implemented backend services with **Node.js** and **Angular**, integrating **MongoDB** for efficient data management. The system provides adaptive learning features, performance tracking, and structured practice modules to enhance student outcomes.

SIMPLE CALCULATOR APPLICATION (PYTHON)

- Developed a command-line based calculator using **Python** that performs basic arithmetic operations such as addition, subtraction, multiplication, and division. Implemented conditional statements and functions to handle user input and ensure accurate calculations.

ROCK PAPER SCISSORS GAME (PYTHON)

- Developed a command-line based Rock Paper Scissors game using **Python**, implementing conditional logic and random number generation to simulate computer choices and determine game outcomes.

INTERNSHIP

4 Weeks of Virtual Internship in Python Programming by CodeSoft

01/02/2025-28/02/2025

4-week virtual internship in Python programming where I developed multiple console-based applications including a Simple Calculator for arithmetic operations, a To-Do List Manager for task organization, a Rock Paper Scissors interactive game, and an Email Verification system using string validation techniques. Strengthened my understanding of core Python concepts such as control flow, functions, modules, loops, and user input handling while gaining practical experience through hands-on project development.

TECHNICAL SKILLS

- Programming Language : Python, Java, C
- Web Technologies : HTML, CSS, JavaScript
- Database : SQL, DBMS
- Tools & Technologies : Machine learning, Artificial Intelligence, DevOps, Git, GitHub, VSCode
- Microsoft Office & Productivity Tools : MS Excel, MS Word, MS PowerPoint,
- Core Concepts : OOPs, Data Structures & Algorithms, Software Engineering

STRENGTHS

- Adaptable
- Communication
- Problem-Solving
- Decision Making

LANGUAGES KNOWN

- English
- Telugu
- Hindi

ACHIEVEMENTS

Leadership in AIML Club and Hackathon

- Successfully coordinated the AIML club and TKR_hackconquest events

CERTIFICATES

- CSA ServiceNow Certification
- Salesforce Certified Agentforce Specialist
- AWS GenAI Fundamentals Certification

HOBBIES

- Solving logical puzzles and brain teasers
- Listening to podcasts on technology
- Cooking

PERSONAL DETAILS

- Date of Birth : 15/07/2004
- Gender : Female
- Nationality : Indian
- Current Location : Hyderabad, Telangana
- Alternative email : chandanaboga03@gmail.com
